

## BRAND CONCEPT

Coolio is a resto-lounge experience with a rooftop designed to draw intercontinental with flavors of african culture together in shared experiences through art, music and taste.

## STORY BEHIND THE BRAND

A Nigerian nomad who travelled around the world; sought exquisiteness wherever he goes, with a deep inner desire to create and express his multicultural background in one place, with dreams that one day he might create a safe, classy and entertaining environment for sophisticated minds looking for a relaxation spot after a long day, then COOLIO was found. Where different people meet, yet share an experience of a lifetime.
